DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:

Species 1; Fig. 1

Species 2; Fig. 2

Species 3, Fig. 3

Species 4, Fig. 4

Species 5, Fig. 5

Species 6, Fig. 26

The species are independent or distinct because figures 1-5, 26 are drawn to various embodiments as disclosed in the Applicant's specification. Figure 1 discloses the structure of the transmission apparatus with a single coupler at the receiving end. Figure 2 discloses a double coupler, one at the driving end and one at the receiving end, which is a different structure from that of figure 1. Figure 3, discloses a double coupler with a terminating resistor at the receiving end, which is a different structure from that of figures 1-2. Figure 4, discloses a single coupler at the driving end with a terminating resistor at the receiving end, which is a different structure from that of figures 1-3. Figure 5, discloses a double coupler with the coupler at the driving end being configured differently from that of figures 1-4. Figure 26, discloses a transmission apparatus with two drivers and two receivers and four directional couplers, which is a different structure from that of figures 1-5.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1 and 30 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.
MPEP § 809.02(a).
